Proposed Impartial Title and Summary

City of Pacific Grove Ballot Initiative Charter Amendment Requiring Voter Approval of Mayor and Councilmember Compensation and Benefits

This measure amends the Charter of the City of Pacific Grove to require voter approval, at the City's general municipal election, before the City may fix compensation or provide City-paid benefits for the Mayor or Councilmembers.

The measure provides that compensation for Councilmembers may not exceed the amount permitted under state law for general law cities of comparable population, and authorizes voters to approve additional compensation for the Mayor. Any lawful compensation in effect when the measure becomes effective would remain in place unless changed in accordance with the measure.

The measure requires voter approval before providing City-paid benefits to the Mayor or Councilmembers, subject to limits imposed by applicable state law. Elected officials may participate, at their own expense, in City-sponsored benefit plans if permitted by law and applicable plan rules. Benefits required by state or federal law are not affected.

Before placing any compensation or benefits measure on the ballot, the Council must obtain and make publicly available a fiscal impact report describing the City's financial condition and the projected impacts of the proposed compensation or benefits.

The measure authorizes reimbursement of actual and necessary expenses incurred by the Mayor and Councilmembers in the performance of official duties, as provided by ordinance.

The measure may be amended or repealed only by a vote of the people.

Notice of Intent to Circulate Petition

Notice is hereby given by the persons whose names appear hereon of their intention to circulate the petition within the City of Pacific Grove for the purpose of amending the Charter of the City of Pacific Grove to require voter approval of compensation and benefits for the Mayor and the Councilmembers.

A statement of the reasons of the proposed action as contemplated in the petition is as follows:

- To respond to widespread public opposition regarding the Mayor and Council's existing authority to increase their own compensation and provide new benefits without voter approval.
- To reflect the electorate's demonstrated demand for binding safeguards to prevent recurrence of such actions.
- To affirm that elected officials serve as trustees of the public interest, not beneficiaries of their own authority.
- To prevent conflicts of interest and the risk of self-dealing that arise when elected officials are permitted to authorize their own compensation and benefits.
- To ensure that state safeguards are applied locally by incorporating them directly into the City Charter.
- To ensure that decisions concerning compensation and benefits are made at general municipal elections, when voter participation is highest.
- To strengthen accountability, oversight, and transparency in local government.
